What is a cookie?

A cookie is a small piece of data that a website stores on your device when you visit, typically containing information about the website itself, a unique identification number that allows the website to recognise your web browser when you return, additional data that serves the purpose of the cookie, and the lifespan of the cookie itself.

Cookies are used to enable certain features (e.g. logging in), to track site usage (e.g. analytics), to store your user settings (e.g. time zone, notification preferences), and to personalise your content (e.g. advertising, language).

Cookies set by the website you are visiting are normally referred to as “first-party cookies”, and typically only track your activity on that particular site. Cookies set by other sites and companies (i.e. third parties) are called “third-party cookies” and can be used to track you on other websites that use the same third-party service.

Types of cookies and how we use them

Essential cookies

Essential cookies are crucial to your experience of a website, enabling core features like user logins, account management, shopping carts and payment processing. We use essential cookies to enable certain functions on our website.

Third-party cookies on our site

We may employ third-party companies and individuals on our websites — for example, analytics providers and content partners. We grant these third parties access to selected information to perform specific tasks on our behalf. They may also set third-party cookies in order to deliver the services they are providing. Third-party cookies can be used to track you on other websites that use the same third-party service. As we have no control over third-party cookies, they are not covered by Woodcock Brother (Wimbledon) LTD's cookie policy.

Our third-party privacy promise

We review the privacy policies of all our third-party providers before enlisting their services to ensure their practices align with ours. We will never knowingly include third-party services that compromise or violate the privacy of our users.

How you can control or opt out of cookies

If you do not wish to accept cookies from us, you can instruct your browser to refuse cookies from our website. Most browsers are configured to accept cookies by default, but you can update these settings to either refuse cookies altogether, or to notify you when a website is trying to set or update a cookie. If you browse websites from multiple devices, you may need to update your settings on each individual device.

Although some cookies can be blocked with little impact on your experience of a website, blocking all cookies may mean you are unable to access certain features and content across the sites you visit.
